In re: Rudex Broadcasting Limited Corporation  
KSDT, 1320 kHz, Redlands, CA  
File No. BMJP-20051031ACO  
Facility ID # 36830

Dear Counsel:

The staff has under consideration the above-captioned Auction No. 84 application, a singleton filed to resolve technical conflict in MX Group 84-61.

The staff's preliminary study reveals that the 8.1 mV/m nighttime interference-free contour fails to cover the principal city as required by 47 C.F.R. § 73.24(i). An exhibit submitted with the application does not include city boundaries. However, the applicant certifies that it meets the city coverage requirements. Our study shows that the proposed NIF covers approximately 67 percent of Redlands.

Please submit a corrective amendment addressing the deficiencies described above. Failure to address these deficiencies in the pending application within 30 days from the date of this letter may result in dismissal of the application for failure to prosecute under 47 C.F.R. §73.3568(a)(1). If you have questions, you may contact the processing engineer at (202) 418-2716.

Sincerely,

 Susan N. Crawford  
Assistant Chief  
Audio Division
